Overview

Universitas 21 (U21) is a leading global network of research-intensive universities that empowers its members to share excellence, collaborate internationally and nurture global knowledge exchange.

U21 works with members to find new, timely solutions to ecological, societal and economic issues, through shared work in research and teaching. This is also achieved through U21's active involvement with the network's student groups and through the U21's engagement with civil society, industry and government.

U21 values cultural difference, connects perspectives and knowledge from around the world and harnesses the collective expertise of our exceptional members in innovative shared spaces, both actual and virtual. This is done in awareness of how best U21 can contribute to the vital role of the network's universities in ensuring that future generations inherit a sustainable world.

By linking people across borders, cultures and knowledge bases, U21 enables our members to achieve more together.

The Benefits of U21 Membership

1. Opportunity for institutions to build partnerships and collaborate in one of the foremost global networks of prestigious research-intensive universities committed to the development of internationally focused higher education and research.
2. Opportunity for students and staff to participate directly within a variety of educational and research initiatives developed across U21's key strategic areas - Educational Innovation, Researcher Engagement and Student Experience.
3. Opportunity to share best practice, key educational resources, data and tools including access to bespoke benchmarking data as supplied by and shared between members.
4. Opportunity to enhance students' awareness, engagement, mobility and employability skills from an international perspective.
5. Opportunity for people to form global working relationships with like-minded academics and professionals within a respectful and constructive environment, which values different perspectives and cultural diversity.

U21's Strategic Areas of Focus:

1. **Encouraging Educational Innovation:**
Enabling members to realise the benefits of research-inspired teaching and facilitate the development of innovative approaches to teaching and learning, curriculum design and staff development.
2. **Supporting Researcher Engagement:**
Supporting early career academics and graduate students to develop international collaboration, benchmarks and share best practice.
3. **Enhancing the Student Experience:**
Delivering internationally focused opportunities, both actual and virtual, which enhance student engagement, mobility and employability and help prepare students for life and work across international borders and cultural boundaries.

Notable U21 Groups, Collaborations & Initiatives

U21 Ranking of National Higher Education Systems

The only ranking in the world to assess national higher education systems, meeting a long-standing need to shift discussion from the ranking of the world's best universities, to the best overall systems in each country.

U21 Health Sciences Group

Established in 2000 to provide a framework for Health Sciences faculty, within some U21 member universities, to explore opportunities for more specialised collaborative projects, information exchange and sharing of resources.
