

World University Service (WUS)

World University Service (WUS) Health Centres, at the University of Delhi provide Primary Health Care in a comprehensive manner to the faculty, staff and students of the University and its affiliated colleges. The Health Centre is operational 24*7 hours even during Covid-19 pandemic crisis.

In the wake of Covid-19 pandemic, psychological disorders including anxiety, depression, insomnia, and suicidal tendencies among students have increased many folds.

WUS Health Centres provide clinical services in Psychiatry, Neurology and Psychosocial counseling & guidance by qualified specialists 24*7 hours through OPDs and telephonic consultation.

Several Webinars on Mental Health issues are being organised with the active participation of renowned Psychiatrists, Neurologists and Psychologists to tide over the crisis.

Webinars are being organised particularly to address the psychological issues of Persons with Disabilities(PwD) with the help of Psychiatrists, Neurologists, Orthopaedicians, ENT Specialists, Paediatricians and Psychologists.

Dedicated 24*7 hours helpline has been made operational by trained Psychologists to address the psychological issues of Patients. Hundreds of patients including students with psychological and psychiatric disorders have been treated successfully.

WUS Health Centres provide all the medicines and relevant investigations to the beneficiaries including students.

We are indebted to our Honourable Vice-Chancellor for providing an excellent setup to cater to the medical and psychological needs of every one.
